

## A Little Princess

Frances Hodgson Burnett

p.232

- 1 List three things Sara says or does that show she's imaginative. What do these actions reveal about her way of coping with her situation?
- 2 Pick out expressions that describe Sara's change in living conditions. How does the author create a contrast between "before" and "after"?
- 3 In the first ten lines, find words or expressions that describe Sara's physical appearance. How do these details build empathy for her character?
- 4 Focus on the lines that describe Sara's life in India. How did people treat her there? Do you think people will treat her the same in England?
- 5 Do you think imagination can help people get through difficult times? Explain your opinion with one example (from the text or real life). (150 words)
